

Balancing Techniques

Don't let the Opponents throw you off!
Learn to keep your partnership in the game.

When the Opponents stop bidding at a low level, you need to consider whether to pass and let them play in a low level contract or to take some additional action to increase the level of the Opponent's contract or perhaps win the contract for your side.

There are 3 situations to consider:

- 1) Balancing after one Opponent has bid
- 2) Balancing after a 1NT opening
- 3) Balancing after both Opponents have bid

I will be holding 3 classes during my Regular Wed a.m. class to illustrate these 3 situations.

March 6,13 and April 24. 9:30 - 11:30

Lots of notes will be provided including hand records and analysis.

Please register with Hazel or me with your email address.
